WELDING ENGINEER

*****For consideration, a cover letter is required when applying for this position.**

Responsibilities:

- Analyze, test and improve in-house welding processes, including resistance, tig, laser, and robotic welding of titanium and nickel-based alloys.
- Test and evaluate a variety of exotic metal alloys for tensile, bend and hardness results.
- Perform metallographic analysis of materials and processes commonly used in aerospace sheetmetal manufacturing.
- Consult with Design and Quality Engineers to evaluate and resolve material conditions related to processing.
- Utilize laboratory test equipment and apparatus, and arrange and suggest modifications to equipment for optimal functioning.
- Record test findings, and prepare and analyze results for review by customers and EMFCO engineering personnel.
- Detect and evaluate opportunities for improvement.
- Propose solutions for potential or existing problems within scope of job function.
- Will be cross-trained in non-destructive inspection and testing functions.

Requirements:

- B.S. Degree in Welding Engineering or Metallurgical Engineering.

This is an excellent opportunity for an engineer with a strong work ethic and knowledge of welding and metallurgical testing processes who is looking to work in a hands-on manufacturing environment.

All positions also require the following:

- 1. Demonstrated ability to communicate and understand instructions and safety criteria provided in English**
- 2. Have a proactive, positive attitude and a strong sense of self-motivation, accountability and responsibility**
- 3. Excellent attendance history**

4. Ability to pass pre-employment and random drug tests

Exotic Metals provides a challenging, fast paced work environment that supports continuous improvement processes & lean manufacturing principles. We offer a competitive benefit package including a generous profit sharing opportunity, health and dental insurance, educational assistance, 401(k), 12 days of paid time off and 13 paid holidays per year.

How to APPLY:

- 1. Visit our website at www.exoticmetals.com to learn more about our company and download our employment application**
- 2. Fill out an application at 5411 South 226th St, Kent, WA 98032 Monday thru Friday from 7:00am to 3:00pm**
- 3. E-mail your application to jobs@exoticmetals.com**
- 4. Fax your completed application to 253-458-3538**
- 5. Only Exotic Metals applications that reference a specific open position will be considered for employment.**

Exotic Metals is an Equal Opportunity Employer who supports a drug-free workplace with pre-employment and random drug testing.
